October 24, 2019

The Taylor County Board of Supervisors met in regular session with Charles Ambrose, Jerry Murphy, and Auditor Bethany Murphy present.

Murphy made a motion seconded by Ambrose to approve the minutes of last meeting and today's agenda. Motion carried 2-0.

Mark Zaccone of Invenergy LLC updated the Board on the wind turbine project. The project will begin construction in spring of 2020. At this time, it appears Taylor County will get 41 wind turbines. The wind turbine company sets the turbines 1250 feet from a house or a significant structure and 550 feet from property lines. The Board has asked County Attorney Spurrier to check into ordinances in other counties to keep roads in the condition they were prior to the turbines construction.

Engineer Wolf joined the meeting. The State legislator changed the ordinances on bridges making all bridges subject to posting for heavy hullers. The posting are for trucks hauling over 80,000 pounds. There will be lots of new signage going up around the county.

Murphy gave a report on the 5th Judicial District meeting he attended.

Sheriff Weed spoke to the Board by phone about the Tahoe that hit a deer. The cost to fix is 4700.00, but it was the next vehicle on the list to be replaced.

No further business came before the Board at this time, and the meeting was adjourned subject to call.

Attest:
Charles Ambrose, Chairman of the Board of Supervisor
Bethany Murphy, Taylor County Auditor
